

Wire/Funds Transfer Agreement

Section A - Wire Transfer Policies and Procedures
 The Credit Union generally uses the Federal Reserve's Fedwire application to wire funds from your credit union account to another institution. The Federal Reserve System has adopted Regulation J governing all Fedwire transactions and by requesting a wire transfer from your account, you agree to be bound by this Regulation, whether or not Fedwire was used, in whole or in part, to actually process your request.

The Credit Union will accept and generally process your domestic and international wire transfer instructions any week day that is not a Federal Holiday. The wire must be submitted to the wire department before 1:00 PM, Eastern Time. Wires received after 1:00 PM or weekends will be processed the next business day. To the extent not prohibited by law, you agree that wire transfers are irrevocable and that the sole obligation of the credit union is to exercise ordinary care in processing your wire transfers and the credit union is not responsible for any losses or delays which occur as a result of any other party's involvement in processing your wire transfers.

Under Regulation J and related sections of the Uniform Commercial Code (UCC), a wire transfer will be posted by the receiving institution and any intermediary institutions to the account number(s) you supply, even if the name you supply does not correspond to that account number. This means you will be liable for any losses or expenses to the Credit Union if the funds transfer is completed based on an incorrect identifying account number that you have provided.

The Credit Union has adopted the following commercially reasonable security procedure as that term is defined in Section 4A-201 of the Uniform Commercial Code.

All wire transfer orders:

- o \$3,000 or more must be done in person by an account owner and
- o the account owner must present a valid government issued identification;
- o initiated by any means other than in person requires a callback verification to the account owner who authorized the wire transfer

The security measures in Section C shall be used by the credit union for the purpose of verifying all wire transfer payment authorizations/payment order requests. By completing the wire transfer agreement form, I hereby expressly agree to be bound by any wire transfer payment authorization/payment order issued in my name and accepted by the credit union when I mail, complete in Online Account Access or otherwise deliver in person, a wire transfer payment authorization form and the credit union verifies my valid government issued identification (in person requests), mother's maiden name, and signature. The credit union may at anytime use a callback procedure to verify the authenticity of the wire transfer information and in the event that information cannot be verified at the time of the callback, the Credit Union is under no obligation to proceed with the transfer order. I further understand and agree that if the credit union verifies my wire transfer order pursuant to these security procedures, then I will be liable for any wire transfers (payment orders) made from my account, whether or not I authorized them. I also understand that the security of my wire transfer password is extremely important and that I am liable for its use until I have notified the credit union, in writing, that it is no longer valid and the credit union has had a reasonable time to act upon my notification. I further understand that I may limit transactions up to a specific dollar amount by indicating below. I may also elect for the credit union to only accept wire transfers initiated in person.

Disclaimer: Due to differing banking regulations and practices throughout the world, it is not possible for any U.S. financial institution to guarantee delivery of a wire transmitted outside the US nor is it possible to guarantee a time frame for delivery.
